About Us

The vision of **Brooks Home Health Care** began when Connie Brooks Earskine had a personal family experience of caring for her mother and grandmother. Connie realized that God had given her the gifts and talents of being a compassionate caregiver. While working in the healthcare industry, she began to realize the immediate need in the area, for non-medical home care. She made that brave decision to come home to make sure her family members received the personal attention, quality love and care that they needed and deserved. That seed spearheaded rapid growth with **Brooks Home Health Care** dedicated, compassionate hearts and gifted hands rendering quality service in the field, which continues to feed the success of **Brooks Home Health Care**.

Personal Care

Brooks Home Health Care is a dependable, quality, non-medical health care company. Our clients have a deep level of trust in our caring team of professionals.

Brooks Home Health Care takes great pride in caring for all family needs in or out of the home. We have trusted caregivers on staff who take a personal interest in their assigned client. Brooks Home Health Care caregivers can help you live an independent quality of life that doesn't require you to change your lifestyle.
